From Monday, April 15 through Friday, May 10, our 2nd through 8th graders will be completing their spring NWEA MAPs test. The MAPs test measures what your student knows and how they are growing academically, allowing you to track your student’s progress throughout the school year and across multiple years. MAP Growth also provides teachers with guidance on how to assist students in areas of weakness and foster areas of strength.

As your child’s first educators, we encourage you to help your child do his or her best on these tests. Some reminders:

- Please ensure that your child gets plenty of rest the night before the tests.
- Provide a healthy breakfast and snacks on testing day.
- Encourage your child to not rush and try his or her best on the tests.
- Please avoid appointments on your child’s scheduled testing days.

Below is a tentative schedule for testing. We do our best to ensure that testing occurs at these scheduled times, but due to outside factors, they may need to change.

If you have any questions about MAPs testing or the schedule, please contact Pat Kalahar.
